

jewel_collector.Collisionable

```
classDiagram
    Collisionable <|-- Radiation
    Collisionable <|-- Tree
```

The diagram illustrates a class hierarchy. At the top is the 'jewel_collector.Collisionable' class. Below it are two subclasses: 'jewel_collector.Radiation' on the left and 'jewel_collector.Tree' on the right. A horizontal line connects the two subclasses, with a vertical arrow pointing upwards from the center of this line to the 'Collisionable' class, indicating that both 'Radiation' and 'Tree' inherit from 'Collisionable'.
